The
Legacy
RECORDER

OUR MISSION

The Legacy Recorder was created to give people the opportunity to write down their stories. Using simple storytelling methods, families can work together to capture their stories. Regardless of age, everyone has something to contribute.

I believe that by working together, families will change the conversations within their own lives and go on to impact how other families interact. The snowball effect of change will be initiated and fueled by a desire to learn from one another in an intimate and engaging way.

THE TOOLS

We have created simple tools that can be used in almost any application to help a person tell their story.

- Books
- E-courses
- Live Sessions
- Legacy Series
- Journaling Support and Guidance

WHO WE WORK WITH

We work with individuals, facilities, education centers, and non-profits to provide the tools, support, and inspiration to help them tell each person's story regardless of age, ability, and stage of life. At each moment our story is important and worth telling to those we love.

EVERY PERSON HAS A STORY WORTH WRITING

HOW DOES IT WORK

Each application of a Legacy Recording is different. We customize the tools to fit the needs of each instance to ensure the families, staff, and all involved meet their goals. Please call or email to schedule with us so we can assess what you need and design a package for your project.
